Accommodation

Remarks :

This Westpoint Pilot 6 is a 2012 model, she is in very good condition and has always been dry stored hence no antifoul on the underwater profile! She comes with a very good road trailer which has the benefit of a brake washing system with hose attachment.

The engine is a Mercury 60hp, four-stroke outboard engine, it has full-service history and the engine hours are only at 173 hours!

This type of fishing/dayboat is becoming very popular as it offers stability and speed at sea, gone are the days of chugging out to the local port or fishing grounds at 7 knots, her top speed is 24 knots and happily cruises economically at 18 knots.

You do not want to miss out on the opportunity to get a headstart for the 2020 season, call the office to arrange a viewing!
