Remarks :**Brokers Remarks:**

This Swallow Yachts Bayraider Expedition is a superb example; this boat is more or less a brand new boat, having only been built in 2022. There are lots of optional extras on this particular boat; She has been specified to a very high standard, all of which are detailed in this broker's inventory.

Swallow Yachts have emerged over the years as a leader and innovator of these mid-range and smaller vessels. Comfort and performance have been a focus of this brand; with its water ballast and carbon mast features, these boats are exciting yet very stable and well-balanced. If you want to purchase a new Bayraider Expedition, this example puts you at the front of the queue, ready for next season. With very light use and a very high specification, there is also a saving on a new boat price with the exact specification!

Owners remarks:

My Bayraider Expedition, launched in mid-March 2022, has been thoroughly enjoyable to sail. From exploring the upper reaches of the Tamar and along the south Devon coastline, she has been a very versatile, safe boat.

I am now transitioning to a larger boat for exploring further afield along the Cornish coast.
