Mechanical and Rigging

Construction

GRP Constructed hull with pronounced V which cuts through the water cleanly improving handling and minimising on deck water. Hull and superstructure finished in "magnolia White" gel coat in good condition. Flush forecheck with nonslip strips. Stainless steel bow rail adds security when anchoring. Teak grab handles mounted to coach roof. Opening hatch to cabin. Perspex windscreen offers protection to helmsman. Deep cockpit with helm seat to port, bench seat to starboard and rear. Well at rear with reinforced transom for mounting engine. Stainless steel stern rail. Mooring cleats.

Engine & Electrics

Vessel powered by a 3-cylinder Tohatsu 70hp, 2-stroke outboard. This is the automix variety which saves the user having to remember to mix the oil and the fuel. Electric start with trim and tilt. Push choke and fast idle. There is a 3.5hp Tohatsu 2-stroke auxiliary mounted on a bracket at transom.

12V system with single battery fitted with isolator. This provides engine start and domestic power. Rev counter and trim gauge. Rubberised comfort grip steering wheel with hydraulic steering.
