Remarks :

Grand Cru (formerly Carpe Diem) was designed to be a world cruising yacht, which has many of the features of a super yacht, albeit 61ft, and it also optimizes the principles of low centre of gravity.

Key design features include a Dutch built steel hull with ice capable bow, 2.8m keel which allows for greater stability, aluminum superstructure, carbon fibre mast and boom that gives exceptional strength with low weight, an exceptional hydraulic system which allows for ease of maneuverability and a lavish and well-maintained interior that provides the ultimate of comfort.
