Remarks :

The Rasmus 35 is often dubbed as the first production sailboat to come from Hallberg-Rassy, a name that's become one of the most respected and prestigious in the world of cruising yachts. With a design from Sweden's Olle Enderlein that was well ahead of its time in the late 1960s, the boat has enjoyed a large following with an incredible production run of 760 hulls spanning 12 years. With its full keel and center-cockpit layout the boat was designed for long distance cruising from the outset. Her well protected cockpit which featured a fixed windscreen which was a trendsetting innovation in its day.
