Mechanical and Rigging

CONSTRUCTION

Sloop rigged.

Length Overall: 42' + approx 80 cm was added to the stern with the same shape as the latest 42'F making it modern looking and giving easy access to water

The hull is solid fiberglass stiffened with stringers and fully tabbed bulkheads; the deck is cored with PVC foam. The joint is glassed over, so the hull and deck together form a monocoque structure; the iron ballast is encapsulated within the long fin keel.

Remarks :

Hallberg-Rassy is one of the most respected builders in Europe and its reputation is reflected in the 42E's construction.

The **Hallberg Rassy 42E** is one of the purest expressions of the Hallberg-Rassy ethos and features all of the firm's signature design elements a center-cockpit layout, a flush teak deck crowning a high-freeboard hull, a distinctive fixed windshield, and a well-appointed mahogany interior. This particular model the HR42E+ has the extra benefit of the Hallberg Rassy 42F type stern platform.

FEATURES:

- *Outstanding New Raymarine electronics (MDF 12' wifi, Quantum Radar, i70s wind and tridata-sounder station)
- *New anchor windlass
- *New upholstery ordered for October 2018
- *Deck refurbished
- *Bow Thrust with two propellers
- *Air conditioning
