Remarks :

**Nab 34** :Grayln had proved a solid, comfortable, cruising yacht and an exceptional sea boat. The Rasmus/Nab 35 was designed by Olle Enderlein, with 760 Rasmus 35s built by Christoph Rassy between 1967 and 1978. They were Christoph's Rassy's first production series boat, and became Hallberg-Rassy's after Rassy's boatyard merged with Hallberg in 1972. The Swedish "Rasmus" version featured the now trademark Hallberg-Rassy fixed windshield, whilst Swedish-moulded but UK-fitted out versions are Nab 35's, with a more substantial wheelhouse shelter.

Fine example of these early Hallberg Rassy Prototypes.

**OWNERS REMARKS:**

We sailed in the English Channel, before bringing her to the Med through the French canal system. After our Purchase in 2002, Gralyn was fully treated against osmosis as a precaution ( no indication of osmosis by survey at the time).The treatment was done at a Blake approved treatment yard, Glasson Dock Marina, UK. The mast and rig was also replaced at that time due to corrosion and cracks in the original mast.
