Remarks :

The **Comet 1050** is a nicely fitted out robustly constructed cruiser. 2 double cabins and a good size saloon with chart table makes her a very neat but spacious cruiser. A good turn of speed and a decent marine engine completes the set up. Italian built boat is a very comfortable and well finished 33 footer. She sleeps 6 in two cabins and a convertible saloon. It would be hard to find so complete a boat and so well maintained for the money. Rigging renewed 2016. VAT paid privately owned and well maintained.
