Remarks :

Solidly constructed **Dufour 35** with new Volvo engine in 2013. Versatile and easily handled cruiser at an attractive price.

An enormous amount of space below decks and good performance under sail, particularly off the wind. She has berths for eight crew with 1.9m (6ft 2in) headroom. The forecabin has a double berth offset to port, with plenty of standing room. An economical and spacious cruiser for larger families and live aboard voyagers.
