- Hot water calorifier
- Water Maker
- Stereo
- DVD player

Remarks :

The **Gemini Catamaran** range is popular in the U.S. as a coastal cruiser/racer the Gemini range has garnered a good reputation for sailing performance, whilst also being a very comfortable boat for extended stays.

the most family-friendly performance cruising catamaran in the world, and the reasons are obvious; Min draft of less than half a meter that allows the boat to be pulled up right next to a beach or anchored in small, protected coves.

Swing keel Draft 1.68 Max .4 Metre max

You won't go far wrong choosing this boat if you are in the market for a catamaran the drop-down keel and rudders offer great versatility, drop the dagger boards for a full day sailing and then lift them again to fit into the shallow waters the monohull sailors cannot.

GEMINI 105MC is a development of the 105M with a number of interior updates. Most visibly, however, the cockpit of the 105Mc can be temporarily enclosed with either canvas or solid panels.

Similar to a Prout catamaran. Easily sailed short-handed and provides great living space and a great option if your planning to work from home/onboard.
