- Galley Sink
- Water System: Pressurised
- Stereo
- TV

Remarks :

The **Hallberg-Rassy 42E**, so designated in honor of its designer Olle Enderlein, predates its immediate successor, the **Hallberg-Rassy 42F** (designed by German Frers), and was built from 1980 to 1991. This particular boat is Hull 91 out of 255.

It is one of the purest expressions of the **Hallberg-Rassy** ethos and features all of the firm's signature design elements—a center-cockpit layout, a flush teak deck crowning a high-freeboard hull, a distinctive fixed windshield, and a well-appointed mahogany interior. The accommodation plan is straightforward for a boat of this type, with the exception of the great cabin aft. This features a split single and double berth arrangement rather than one large island or athwartship double. The split-berth arrangement is preferable when the boat is underway, as two persons can sleep more comfortably in a seaway in separate lateral berths.
