Accommodation

By clever design there is a lot neatly packed into the Bella 703. The driving seat is completely enclosed within the cabin area, with panoramic glass surround for great visibility. Light and airy within the cabin and the roof slides open for added light.

Galley

Wallace Paraffin 2 Hob Cooker with conversion air vents to dual as cabin heater

Sink with electric pump cold water tap

Stowage and cupboards

Isotherm Fridge

Saloon Area

Opposite driving seat there is forward and aft bench seating with saloon table

This folds down to make a single berth

The forward bench seat support reverses to make a forward facing passenger seat when

underway

Cabin

V Shaped bench seating

Infill to make into generous double berth

Heads

Jabasco marine toilet, neatly tucked to the rear of the saloon

Remarks :

The Bella 703 is a neatly built Finnish 23 ft motor cruiser which is a comfortable, practical and versatile craft. The Finnish designers have cleverly packed a lot into the boat which offers 3 berths, marine toilet, galley with 2 hobs, fridge and sink. The Yanmar 3JH4-E 40hp diesel engine, looking in excellent condition and with low mileage, is ideal for river and estuary trips. The interior offers comfortable accommodation for overnight and weekends on the water. With about 2.5 litre fuel consumption per hour when cruising at 2000 rpm she is an economical runner too! Reasonable offers on the asking price will be considered.
