## Broker Remarks

If you are looking for a strong, sturdy and proven blue water cruiser to take you on a worldwide adventure then we recommend viewing Oyster Blue. With a successful track record of blue water cruising, atlantic crossings and an unconfirmed passage to Australia you know you are in safe hands behind the wheel of Oyster Blue. Oyster 39's are a centre cockpit, deep fin keel ketch, were designed by Donald Pye and built here in the UK by Oyster Marine LTD. Her displacement of almost 9 tones (light) gives her incredible offshore sea keeping, and with such a high volume interior she not only offers sea kindliness, but also gives you unmatched comfort on your travels. Equally, she is a very spacious liveaboard if your are craving marina life.

Oyster Blue has been extremely well maintained, and her current owners for 7 years have continued her maintenance and upgrades, which shows throughout the boat.

Keep reading for more detail, this boat will not fail to impress you. Viewings are highly recommended, as yachts of this calibre do not come up very often, especially at this price point. Viewings are strictly by appointment as the current owners are currently living onboard, braced for a prompt departure for the new owner. Contact Louis at Network Yacht Brokers Milford Haven to book your viewing before she sails into the sunset. 01646 278270 or 07709 095683 by WhatsApp. Email [milford@yachts.co](mailto:milford@yachts.co). Loads more photographs available on request, and video to follow!
