## Mechanical and Rigging

Legendary Rotax 4-Tec Jet 150 HP Engine being the most proven technology in jet propulsion.

Where a prop engine pushes water in a dispensed pattern the Rotax Jet Power concentrates the thrust with an on-board impeller that pulls water in and forces it out at a single point for maximum power.

Closed loop engine cooling protecting the engine from harmful salt, and corrosion by cooling it with clean coolant similar to a car, with a thermostat to ensure optimal engine temperature. A drive sleeve shaft which prevents the problem of wrapping debris such as tow ropes and weeds around the drive shafts

Lateral thrust control delivers quicker reverse and an aluminium reverse gate which offers unmatched low speed maneuverability to make docking a breeze.

## Accommodation

### Remarks :

**2020 Scarab 165 G**, Rotax 150 Jet Engine. This Pocket Rocket being the smallest Jet Boat on the market with distinct styling and potent power putting this jet boat at the forefront of exhilaration. Ideal for Skiing, Wakeboarding, and Tubing with its Jet engines giving incredible thrust, it is also a very sociable day boat with ample seating and legroom for up to 5 crew. With its shallow draft of 0.30 Meters, she is fantastic for touring those shallow creeks and waterways. Complete with trailer, navigation lights and rear facing seating with a good size bathing platform where you can have a picnic while out on the water with a spot of swimming. Cup holders and storage under bow seats, in helm console and ski storage under the cockpit floor. With the added bonus of the jet engine, you have no fear of hands or ropes getting caught in propellers.
