Storage

Remarks :

Hallberg-Rassy Monsun 31

Model Year: 1974 (Hull No. 26)

A total of 904 hulls of the Monsun were built between 1974 and 1982. That means the Monsun is the best seller of all time by Hallberg-Rassy with no less than 904 yachts delivered all around the world.

A true blue water cruiser beautifully built using only the best materials these rugged craft have stood the test of time well.

Easily sailed by a couple, or single handed, these proper offshore yachts have that

indefinable go-anywhere performance that inspires confidence in all weathers.

Never having left The Baltic until 2013, she has seen seasons of only 3-4 months in duration and been stored ashore for the rest of the time. As a result she is in excellent condition throughout.
