## Accommodation

### Remarks :

2008 Pirate 21 powered by twin 90HP Honda Outboards making her a fast and comfortable fishing boat, capable of cruising at around 20 Knts with a maximum speed of approximately 30 Knts. She has been well maintained with a full service history and new stainless steel fuel tanks built and fitted in 2017.

With ample room on her deck where four fishermen can comfortably fish from and have room to manoeuvre when you catch that one that would typically get away. It will get you to your mark quickly and efficiently. The cuddy offers excellent protection from the weather without taking up too much room from the deck space.

Designed by fishermen for fishermen she is a very sturdy and well-designed boat that has

been lovingly cared for and is well worth viewing.
