# Accommodation

## Accommodation

**Contoured Seating** Seating for five with 3-across contours where it counts promise everyone's snug and comfortable during an evening break or afternoon rip! **Aft Lounge**

**Seats** Sinking into a pair of aft-facing loungers following a day of shredding is a prime spot to enjoy the view of an evening sun. **Smart**

**Storage** Deep, finished storage is a staple for the 165: unique spacing for all your gear is vital in a boat of this caliber! **Mechanical & Electrical**

- **Rotax 150hp Jet Drive**
- **Jet Propulsion Performance** The Legendary Rotax 4-TEC Engine is the most proven technology in jet propulsion. With over 550,000 currently in operation and three power levels from one proven block.
- **Direct Power Gives You Maximum Power** Unlike a conventional prop engine, which pushes water in a dispensed pattern, Rotax Jet Power concentrates thrust. An onboard impeller pulls water in and forces it out at a single point for maximum power. Less wasted engine power means more power in your throttle hand.
- **Closed-Loop-Engine Cooling** Protects the engine from harmful salt, gunk and corrosion by cooling it with clean coolant like a car. Like your car, every Scarab has a thermostat to ensure optimal engine temperature for engine reliability.
- **Drive Shaft Sleeve** Helps prevent the problem of wrapping debris, such as tow ropes and weeds, around drive shafts while other systems can only try to fix the problem after it occurs.

- **Lateral Thrust Control Delivers Quicker Reverse** Unlike other boats, which feature a small, plastic reverse gate, our aluminium reverse gate offers unmatched low-speed manoeuvrability to make docking a breeze.
