REF: 32145

## Mechanical and Rigging

## Inventory

- Road trailer
- Electric bilge pump

## Accommodation

## Remarks :

Quicksilver 500 Pilot house - New to the market. RS8 has been commercially owned and operated by a Marine Survey company. However this vessel is a very versatile little boat and commonly used as a sports fishing boat, due to the generous cockpit space, Pilot house helm position and 60hp engine which pushes the boat at good speeds. The broker comments that the boat has been used commercially and there are areas to the hull which require repair and modification to remove blocks that were previously fitted to accommodate survey equipment. However the engine has been maintained professionally to ensure reliability for commercial use. The vessel has been priced accordingly to reflect various repairs are required to renovate this boat to a high standard. Quotations for works are available on request.
