varnish to
be redone

water tanks 2
1 of 200 liters
1 of 240 liters

Misc

Diving cylinder 2014 working
STAB Jacket 2013 working

Remarks :

Ansa 42 is a 41' 6" monohull sailboat designed by Ocke Mannerfelt and built-in Sweden by Rex Marin / Ansa Sailing AB (SWE) starting in 1979. This is a yacht built for fast passage making. Hull type Fin w/spade rudder. The boat was surveyed in 2021, you will notice all the surveyor's comments close to each item. In 2020 the boat had a preventative osmosis treatment. Works included sand and stripping off old antifouling, epoxy paste, epoxy paint, and finally Antifouling.

She had a new engine recently, and two seacocks have been installed new in 2021, the galley sink valve and the head sink valve.

If you are looking for a fast yacht needing a little TLC down below for a bargain price, then this might be the one that ticks all the boxes. All inquiries welcome.
