flushing pump, poles, fighting chair

Remarks :

A Cata Sportfisherman 356 fully equipped for fishing is available for sale in Fuerteventura. Cata is a company that was founded in 1884 Huelva. Its employees at the time had fifteen years prior experience in the boat building trade. The company primarily builds Catamarans that are made from fiberglass and graphite. They use the very latest technology in their construction. This manufacturer is not in production anymore.

Ya al barco se le quitaron los vinilos de la popa y se le pusieron los turbos la semana pasada.

Tambuen se le puso cargador de baterias nuevo.

En esta semana le pondremos los turbos nuevos ya q las espoletas tienen un poquito de

orgura.

Los motores tienen poco uso y siempre a una velocidad q no supera las 1500 vueltas. Los arranques tambien se le pusieron hace poco tiempo y hoy le he puesto el cargador de baterias nuevo.
