Remarks :

The Colvic Victor 41 combines European styling with spacious accommodation. The Victor 41 offers comfortable cruising, fast performance, combined with great seaworthiness and security in heavy weather. The designers had in mind that this boat would be used as a home afloat, so with that in mind, her layout was formed. Commissioned from leading naval Architects John A. Bennett & Associates Ltd. The 41' has been designed for extended range cruising capability, and with her tested hull design, will prove equally efficient for navigating coastal waters in utmost comfort.

This yacht has been only been used for private use and has always been kept in Spain. She is in very good condition having four owners in total. The owner bought it 4 years ago and had the sail replaced.
