HEAD with sink, toilet, shower

Remarks :

This Northwind 47 Yacht was built with one purpose in mind "Globetrotting in style". The

Northwind 47 is an extremely well-found yacht. Equipped with deck saloon steering for when the going gets tough out at sea, she is an all-weather yacht that will delight her owner in all weather conditions. Her high-quality dark wood interior finish has undoubtedly stood the test of time, and this yacht only looks a few years old despite her age. The Northwind 47 is a Yacht that built well ahead of her time catering for the luxury end of the globetrotting yacht market.

This Northwind 47 has been used very little in recent years. The owner is reluctantly selling her due to family commitments. Built in the Northwind Shipyard in Barcelona, Spain in 1987. The Hull is built in GRP, with a teak deck and cockpit. Boat needs some maintenance, which accounts for the low asking price.
