Remarks :

English

Dorso Duro is a lovely model of Hallberg Rassy 35 kept in excellent condition despite her age. The actual owner bought her two years ago, and he lived onboard most of the time enjoying her sailing around Barcelona waters. He has now decided to move into a flat, but he is still using her during weekends, for this reason, she is very well maintained, livable and ready to go.

The first owner known was a German couple, and they sailed the boat along the German canals to the Balearics. They gave this name as their dream was to live in Venice, Italy and Dorso Duro is a district in Venice. They were living in Germany having their holidays in Mallorca. The second owner was a Spanish Skipper; he bought the boat in 2008 approx. He enjoyed Dorso Duro taking people sailing around the Balearics islands. He had all electronics replaced.

Spanish

Dorso Duro es un bonito modelo de Hallberg Rassy 35 mantenido en excelentes condiciones a pesar de su edad. El propietario actual lo compró hace dos años, y vivió a bordo la mayor parte del tiempo disfrutando de su navegación por las aguas de Barcelona. Desde poco tiempo decidió mudarse a un apartamento, aunque todavía la está utilizando durante los fines de semana, por esta razón, la embarcación está muy bien mantenida, es habitable y está lista para salir.

El primer propietario conocido fue una pareja alemana, navegaron el barco por los canales alemanes a las islas Baleares. El nombre del barco viene de sus sueño de vivir en la ciudad de Venecia en Italia y Dorso Duro es de hecho, un distrito en Venecia. Vivían en Alemania pasando sus vacaciones en Mallorca. El segundo dueño fue un patrón español; compró el barco en 2008 aprox. Disfrutó de Dorso Duro llevando turistas a navegar por las islas. Tuve todos componentes electrónicos reemplazados.
