2 Shower (never been used)

Remarks :

This is a beautiful example of an Azimut 50 Flybridge Motor Yacht, she was commissioned for the first and only owner in September 2007. She is flying the Spanish flag fully tax and VAT paid. The owner has only used her locally along the Spanish coast and around the Balearics Islands. This Azimut 50 has been kept in first class condition, the owner has spared no experience in servicing the equipment to the highest standard.

Engines aboard have only done 738 hours having been serviced every year by the local Caterpillar engine dealer. The shower compartments on board have never been used, so they are in as new condition. Having owned boats for many years the owner and his wife have due to their age reluctantly decided to downsize. If your looking for a quality flybridge cruiser then look no further. Viewings are available by appointment exclusively through Network Yacht Brokers.
