Mechanical and Rigging

Engine

The Engine itself is the more powerful optional Volvo Penta D2-75, powering a sail drive and SPW Variprop four-bladed propeller (new 2021). The last service May 2021 was done at 2250h. She has a fantastic range holding 250 litres of fuel. Fuel con. 5l/h estimated Engine hours 2250 ca.

The Freshwater tank holds 570 litres add to that the hot water tank capacity of about 45 litres and you have a total water capacity exceeding 600 litres. The hot water system is heated from either shore power or Engine cooling using a built-in heat exchanger in the Volvo engine.

1 fridge

2 sinks

Comfort mattress

Wine cellar in the bilge

Moabi Wood Floor

Remarks :

She is a Liberty Version of a Dufour 450 Grand Large, constructed in 2014 in La Rochelle, France. The yacht is lying in Port Ginesta, Barcelona, and available for sale through Network Yacht Brokers. She is coded for commercial use with the Spanish flag. Her length overall is 13.50 meters having a maximum beam of 4.35 meters. She is a fin keel yacht with a draft of 2.20 meters and the displacement is 10300 KG.

Typical of the Dufour range, she has a large Sprayhood (new 11.2019) and Bimini. The big Bimini offers good protection from the sun and the roof will also make an excellent location for installing solar panels. Cockpit lockers are plentiful and include an up-to-date ten-person Life Raft stored in the dedicated aft locker. Onboard safety equipment also consists of ten Automatic Lifejackets. Safety equipment was last serviced in June 2021.

Antifouling and hull polished as well as all-new running rigging in May 2021. The latest engine service was done in April 2021.
