Hot water with engine

Remarks :

Beneteau First 47.7 Performance was designed by Bruce Farr and built in 2000. She is in good sailing condition, carefully maintained by her owner, who has been using the yacht for charters only with skippers and sailing experiences. Fast and manageable boat for navigations of any type and condition. Structurally and visually in perfect condition and with constant maintenance. The boat has been taken out of the water yearly for antifouling and polishing. Dispatched on the 6th list for exploitation in Spain. The engine has been fully reconditioned.

Manufacturer Provided Description

Following in the footsteps of the highly successful First 40.7 and the interior styling of the First 45f5, the First 47.7 combines a sleek and sophisticated racer with all the comforts of a luxurious cruiser. Her Bruce Farr-designed hull and powerful rig provide excellent performance, whether racing or cruising. Below the deck, this yacht we are offering for sale is a 4-cabin layout with two forward double berths and two individuals in the stern, hanging closets, and functional lighting. The nav station faces forward with a large chart table and pigeonhole chart storage. The galley is fully equipped with a large front-loading refrigerator, a 2-burner stove, and loads of counter space. All of this is combined with custom cabinetry and interior joinery. In the cockpit, the large wheel allows the helmsman to sit comfortably on the coaming with an unobstructed view forward. Other cockpit features include teak-slatted inlaid seats and plenty of room to mount electronics on the steering pedestal and cockpit coaming. The traveler is conveniently located near the helm for optimal boom and mainsheet control. Below deck, in the salon, are the warm tones of a cherry-stained interior and plenty of ventilation accented by the 6-foot 3-inch headroom. Handrails are sheathed in leather, a gimbaled salon table can be tilted when heeling, and companionway steps are framed with aluminum.
