History and Construction

The **Galeon 330** Fly is a flybridge cruiser of Polish manufacturer Galeon Yachts. This Fly bridge cruiser despite its size has all the features of much larger flybridge yachts, spacious stern area. GRP construction, white hull, and superstructure with non-slip moulded decks. Teak laid cockpit and bathing platform, with teak laid steps to the flybridge.

Accommodation

The **Galeon** offers 5 berths in three cabins, two with double berths and one with single berth which gives a total of 5 berths including an additional berth in the saloon. Fully functional galley equipped with sink hot and cold-water supply, gas hob with two burners, microwave, fridge freezer. A separate bathroom and marine toilet with shower with holding tank. Plus three bedrooms mean that you can always find a little privacy when you need it. The U-shaped couch finished in cream leather is great for dining together and will surely be the centre stage of the yacht. Heated throughout via an Eberspacher diesel heating system.

Remarks :

2005 Galeon 330 Flybridge

The **Galeon 330** has all the features of the expensive top of the line models, the inclusion of the flybridge provides additional space and an opportunity to helm the boat while enjoying the sun and the sea breeze. The glass sliding doors to the cabin protect from weather conditions, providing safety and comfort for you and your guests. One owner from new. Great and practical fly bridge cruiser in great condition.
