Keel:

- Lifting Keel

History & Construction::

The **Seascope 24**, designed by Sam Manuard is a high-performance thoroughbred with a boldly modern hard-chine hull. Most of the standing rigging is led back to the clutches located on the companionway and two winches combined with jammers making trimming child's play. The Seascope 24 performs particularly well in light and medium air, progressing moderately and with ease at speeds of 15 knots.

Accommodation

Four extra long berths are the main feature of the 24's four interior berths. The size is achieved by a smart system of sliding panels. Her storage area is handled by the smart bag system borrowed from the Seascope 27. There is of course a chemical toilet and battery for electric system.

Remarks :

2018 Seascope 24 The Seascope 24 is a stylish racer and a fast cruiser, an unparalleled compromise in the category of high performance, transportable, cruising yachts.

Ideal for racing with a crew of four. Fully serviced trailer, and under covers included in the sale. One owner from new. Presented in excellent condition. Viewing highly recommended.
