### History and Construction

The Sunseeker Martinique was designed by Don Shead and built by Sunseeker in 1990. This motorboat's construction is fiberglass hull, deck and superstructure. There is a bathing with teak grating and folding boarding ladder. Blue cockpit canopy sheltering a very spacious aft deck cockpit with plenty of storage.

## Accommodation

The Sunseeker Martinique 36 comfortably berths 6 in 2 cabins and the saloon. The forward cabin is a double berth with good storage and access to the bow deck hatch. The saloon is fitted with a C-shape cream-white seating and fixed table. Opposite the saloon, the starboard galley is equipped with a stainless-steel basin, front loading fridge and 2 x hob burners. The aft cabin is a double berth with a light blue mattress. The head is located aft starboard and is fitted with a manual marine toilet, shower, drain and basin. Carpeted in a light grey throughout the saloon, galley, stairs, cabins and the cockpit. The cockpit has plenty of space for relaxing and sunbathing with another basin located port of the cockpit. The Sunseeker Martinique also has a bathing platform with a deck shower.

## Remarks :

The **Sunseeker Martinique 36** is a true Sunseeker - offering sparkling performance and smooth running through even the most challenging seas yet carrying her passengers always in the lap of luxury. Her cockpit design offers parallel contoured seating around a large cockpit table. This configuration is ideal for a large party of boating friends, making the Martinique extremely popular with Sunseeker owners who really relish an enjoyable and exciting day out.
