Mechanical and Rigging

Mechanical Systems

This Princess 35 has twin Volvo Penta 200HP turbocharged diesel engines, driving shafts with 2 x 3-bladed fixed propellers.

The engines are fresh water-cooled and were last serviced in February 2023 by the owner. The port engine has completed a total of 1322 hours, and the starboard engine has completed a total of 729 Hours, as of 18th April 2024.

There are two 341-litre galvanised steel wing fuel tanks giving a total fuel capacity of 682Lt. The Cruising speed of this Princess 35 is 14 knots with a top speed of 20 knots. To make handling easy this boat is fitted with trim tabs.

Electrical Systems

5 x 12-volt batteries (2 x engine + 2 x domestic 1 x anchor windless batteries) charging from alternator and battery charger via 240v shore power system with ring main, immersion heater

History & Construction:

Built by Princess in 1990 this Princess 35 has a white GRP hull and superstructure and flybridge with stainless steel stanchions, pulpit, walk-through transom gate to bathing platform, and Stainless steel folding swimming ladder. This motorboat was last out of the water in August 2023 when she was antifouled, hull polished, and anodes changed. The owner is selling due to a change in his personal circumstances.

Disclaimer:

Network Yacht Brokers Kent Ltd has the largest range of boats for sale in Kent. The company normally acts as brokers for the vendor who unless otherwise stated is not selling in the course of a business. Whilst every care has been taken in the preparation of these particulars the correctness is not guaranteed and they are intended as a guide only and do not constitute a part of any contract. A prospective buyer is strongly advised to check these particulars and where appropriate and at his own expense to employ a qualified marine surveyor to carry out a survey and/or to have an engine trial conducted which if conducted by us shall not imply any liability on our part.

General note on safety equipment: Any safety equipment such as liferaft, fire extinguishers and flares etc., are usually personal to the current owner(s) and if being left on board as part of the sale of a used vessel, may require routine servicing, replacement, or changing to meet a new owner's specific needs.

Accommodation

The Princess 35 boasts seven berths across two cabins. In the fore cabin, you'll find an off-centre double berth with convenient under-berth storage to the portside, complemented by a dressing table with a mirror to starboard. Additionally, the fore cabin offers a full-length hanging wardrobe and extra storage.

The heads are situated on the port side behind the owner's cabin, featuring a sink mounted

in a vanity unit alongside a marine toilet. The sink is equipped with hot and cold water, including a shower attachment. Hot water is supplied by the engine through a calorifier tank and 240v immersion heater.

Moving to the galley, located on the port side, it features a single stainless-steel sink with pressurized hot and cold water, a two-burner gas hob with oven and grill, microwave, 12v fridge, 240-volt sockets, and ample storage space. Opposite the galley, on the starboard side, you'll find a U-shaped seating area in patterned cloth, accompanied by plenty of shelving and storage. This space can also convert into an occasional double berth.

Aft, steps lead up to the helm and saloon area. The internal helm, positioned on the starboard side, offers seating for two with full engine controls and operational navigation aids, although they may require updating. Vessel control switches are also conveniently located in this area.

Behind the helm lies a spacious saloon featuring two large settees in patterned cloth on both port and starboard sides, which can be converted into a double berth if needed. On the starboard side, a small TV unit with a 35-inch TV adds entertainment value.

Sliding glazed aluminium doors open to the aft cockpit outdoor area, complete with a fully enclosed canopy. Rear bench seating with under-seat storage spans across the stern, with a transom door providing access to the bathing platform. This area also offers easy access to the two Volvo engines and the flybridge, which features an external helm position with seating and a table. The flybridge itself includes full engine controls and navigation equipment, a double helm seat with a swappable backrest, and a large L-shaped bench to port.

Remarks :
