Remarks :

This is a nice example of the Jeanneau selection 37 which comes to the market on the water after light use this season. The Jeanneau selection 37 offers cruising accommodation alongside good sailing performance. The unusual two companionway design provides access to the aft cabin and a through route to the main saloon with the benefit of separating your accommodation from your more active sailing areas, creating the best of both sailing enjoyment and cruising comfort. Priced very reasonably for a production-built 37foot sailing yacht this is sure to attract interest.
