Ocqueteau Ostrea 600

Broker Remarks

The OSTREA 600 T-TOP is based on the excellent hull of the OSTREA 600, realised in vacuum infusion and fibreglass, offering almost indestructibility and an optimal centre of gravity, for exceptional sea abilities, in particular in rough sea. A flat walk around deck, very large lockers inside the cockpit and under the pilot station, a large-sized anchor locker for easy use. The T-Top structure, in stainless tube of 48 and 33 mm and windscreen on silent blocks, protects you from sun and bad weather with a devastating look! The cockpit comes with an elegant sun bed cushion set, with additional front seating cushions for lounging. Max power of 200 HP for an authorised WOT speed of 50 knots! Really exciting whatever the program: pure fishing, day cruiser, water-skiing, wake boarding! Boatpoint can fit you out with a great Engine package of your choice and provide huge savings on your local drystack berthing.
