Large, tinted cabin hull windows  
Large, tinted cabin skylights

## Remarks :

**Finnmaster T8 power boat for sale.** 'Arcis' is a beautiful example of a Finnmaster T8 cruiser, and is powered by a single Yamaha F300 300hp outboard engine with *only 15 hours use!*

She is 'like new' and in immaculate condition, having been kept under cover in a warm dry climate when not in use, with the engine serviced and winterised each year. The solid build quality and finish is as you would expect from this Scandinavian yard. She provides 4 berths in two double cabins, with a galley in the cockpit and a heads with an *unused* seawater toilet with holding tank. The vessel comes with a bow thruster, cockpit canopy and lots of factory extras, as well as a braked twin axle SBS 4/3500EL 'Easi-loader' multi-roller road trailer, Sonicshield II ultrasonic antifouling system, a tonneau cover and a full winter storage cover.

The owner purchased from new and is reluctantly selling due to lack of time to use the boat. UK VAT has been paid. Boat Review and manufacturer's video available upon request.

An optional and extendable Boat & Yachts Warranty is available on this vessel for periods from 3 months up to 36 months. Contact us for details.

Additional images will be available and uploaded shortly, following the vessel recently arriving with us.

*Contact us today for further information! All serious near offers considered!*
