Remarks :

Originally built as a lifeboat in the UK by a company called Viking, "Pixie" was later

converted to a fishing type boat with a wheelhouse and forward cabin.

It is believed to have been built in 1977 but exact year is unknown. Pixie is 26ft long.

Pixie is a delightful boat and is currently used by the owner for local salt water fishing and exploring the shallow backwaters with the grandchildren, but she has a sturdy hull and would undoubtedly handle bigger seas. The boat appears to be well maintained and generally in good order throughout.
