Inventory

Manufacturer Provided Description

The Sun Odyssey 37 was designed by Jacques Faroux and was a great success for Jeanneau. In the three cabin version, the layout is arranged around a saloon and "L" shaped galley with a traditional chart table to port along with a washroom aft of the chart table. She has comfortable twin aft cabins and the owner's cabin is located forward. Positioning the helmsman on the cockpit coamings for better visibility. Greater stability due to increased ballast. A large sail area for easy sailing in all conditions.
