Price guide £16,000-£20,000

thickly – especially around the keel and chainplate areas, but watch out for any signs of osmosis when buying.

There was an influx of these sturdy cruisers onto the market when Sunsail (who purchased the YCA) sold its Mediterranean fleet – many of which were sailed back to the UK for refitting. Our test boat, *Cleopatra II*, was bought off Sunsail in Turkey four years ago by Simon Gledhill, who sailed her around the Med, finally stopping at Malta where – due to lack of time – he employed a professional delivery team to return her to the UK. Simon cruised her all over the English Channel and across to Brittany and the Channel Isles, before selling her this spring to current owner, Phil Howard. Phil is a newcomer to cruising boats and is planning modifications to *Cleopatra II*
